

Autism Housing Network of Alberta

Project H.O.P.E: Housing Opportunity for Persons with Exceptionalities

Dear Autism Housing Network of Alberta members,

Project H.O.P.E is a 20-unit building, renovated to provide a nurturing and inclusive home for adults on the autism spectrum. This event will offer a fantastic opportunity for you to:

- Discover the innovative design and amenities tailored to support residents' unique needs.
- Meet the remarkable individuals involved in making Project H.O.P.E a reality.
- Learn about the profound impact of this initiative on the lives of our community members.
- Engage with like-minded individuals who share a passion for creating an inclusive Edmonton.

Additionally, we will have time dedicated to parents and guardians who are interested in securing accommodations for their loved ones in this facility. This session will provide information into the application process, eligibility criteria, and the support network available to families. Whether you have immediate plans or are exploring future possibilities, this is your opportunity to gather essential information and have your questions answered.

We look forward to sharing this transformative journey with you and providing the information you need to make informed decisions about securing accommodation in Project H.O.P.E.

Please see attached recorded session.

Warm regards,
